

## **VIDEOTON Elektro-PLAST Kft. wins 3M EMEA Supplier of the Year Award**

*Award recognizes suppliers who improve 3M's competitiveness*

**Langenthal, Switzerland. [April 27]** – VIDEOTON Elektro-PLAST Kft. was honored with the 2020 3M Supplier of the Year Award in recognition of the company's contribution to improving 3M's competitiveness.

This year, 3M recognized 13 suppliers, among thousands in its global supply base, for world class performance in providing products and/or services. These suppliers were identified and rated based on strategic spend, contract compliance, actions taken to improve 3M's relevance and overall supplier performance (quality, delivery, responsiveness, cost, and technology roadmaps).

"2020 has been unprecedented in many dimensions. Pandemic, environmental, human rights ... whatever the challenges, the 3M team remained focused on an optimal customer satisfaction" said Ivan Donzelot, Senior Vice President, 3M EMEA Manufacturing & Supply Chain. "Working in full partnership with our suppliers was even more critical. Together, we managed to successfully navigate through an unpredictable environment full of constraints, global shortages and Force Majeure. And together we became proficient at prioritization, allocation, dual sourcing, flexibility and fast tracking. Day after day, we have been able to maintain our operational excellence to serve our customers. This would not have been possible without the outstanding engagement of our suppliers and the excellent collaboration during times of crisis. For that reason, the 2020 supplier of the year award has a special meaning and it is therefore with the highest respect and pleasure that 3M is recognizing the very best among its respected partners".
