GENERAL INFORMATION ABOUT VIDEOTON

Founded in
1938
Private since
1992

Revenue
(2020)
586
Mill € *

11
Locations

8600
Employees**

1st
Most Valuable
Company in HUN
Ownership***

4th
Among EMS
Companies HQ'd
in Europe

* No debt since 2005

** 2100 employees in Services

*** According to Forbes in 2017 and 2018

▪ Percentages are defined based on the TO level

LOCATIONS

CORE TECHNOLOGIES OF VIDEOTON

SHEET METAL PROCESSING

VTES, KVJ Muvek

PLASTIC MOULDING

VTEP, VT Plastic, VT Precizios, VT Bulplast

MACHINING

VT Metal, VT Mechatronics

PCB ASSEMBLY AND TESTING

VT Automotive Electronics, VEAS, VEAS Bulgaria

BOX BUILD ASSEMBLY

VTEP, VTBT, VTES, VTBH, TIPA, VT-ASYST

OTHERS

VT-Systemtechnics, Ventfilt, Pannonjob, Industrial park, VT ARtrans, Pannonfacility

HISTORY OF VTEP/VTBT

1970-1997

- establishing the plant
- TUNGSRAM – electron tubes
- Plastic injection moulding (1990)
- MBKE Kft. ('93-'97)

1998

- start of household appliances production

2008

- Marcali acquisition for our battery assembly activities

2017

- automatized battery assembly
- on-line data collection system

1997

- VIDEOTON acquisition
- 1997-2002 battery assembly started in Kaposvár

2004

- expanding customer base

2013

- establishing clean room production area
- ESD protection area in Marcali

2021

- Videoton Kaposvár plant 50th anniversary
- Achieving a significant milestone on TO basis

FACTS AND FIGURES

Turnover / m EUR

- Number of employees

cca. 1 300

- PIM machines

~100

- Turnover (2020)
- Planned turnover (2021)

120 mill EUR
150 mill EUR

- Plastic parts / year
- Pcs products / year

260 mill
13 mill

- Production area
(Kaposvár & Marcali)

43 500 m²

- Customers

15+

BUSINESS MODEL

PLASTIC INJECTION MOULDING

Engineering

- thermoplastic injection moulding
- ~100 pcs PIM machines, 15-650 t clamp force
- on-line real time data collection and evaluation system

Tooling

- automation, robotized production cells
- tamper printing, hot stamping, laser engraving
- welding technologies (IR, mirror, ultrasonic, friction)

Injection moulding

BOX BUILD ASSEMBLY

Industrialization

Battery assembly

Final product assembly

- engineering samples, mass production and service parts
- customized, personal solutions – production cells to assembly lines
- wide range of complex sub-assemblies / end-products
- assembly, testing, automation, late customizing

CERTIFICATES

ISO 9001:2015 (VTEP-VTBT)

ISO 14001:2015 (VTEP - VTBT)

IATF 16949:2016 (VTEP - VTBT)

ISO 13485:2016 (VTEP)

ISO 45001:2018 (VTEP - VTBT)

AEOF 2014 (VTEP - VTBT)

ISO 50001:2018 (VTEP)

PORTFOLIO

PIM

Battery assembly

Box build assembly

* Automotive
