HISTORY

1970-1997

- establishing the plant
- TUNGSRAM – electron tubes
- Plastic injection moulding (1990)
- MBKE Kft. ('93-'97)

1998

- start of household appliances production

2008

- Marcali acquisition for our battery assembly activities

2017

- automatized battery assembly
- on-line data collection system

1997

- VIDEOTON acquisition
- 1997-2002 battery assembly started in Kaposvár

2004

- expanding customer base

2013

- establishing clean room production area
- ESD protection area in Marcali

2023

- Videoton Kaposvár supports Bulgaria DZU plant
- Close future cooperation

GENERAL INFORMATION ABOUT VIDEOTON HOLDING

- privately owned, financially strong vertically integrated industrial group in best-cost Europe
- one of the leading European EMS providers with extensive operations for mechanical parts
- complex service provider owning and operating industrial parks including facility management and workforce secondment
- 30+ -years of proven „adaptive” strategy, maintaining diversity
 - In customer-base: accounts from up-and-coming companies (incl. startups) till established global players
 - In market segments: Traditional markets (like Automotive, Industrial or Household) as well as dynamically growing segments (such as Portable Energy, IoT or Smart Home)
 - In technology and activities: making parts, modules and final-assembled products

* Turnover without Services

** Including Electrical safety, Power generation, UPS, Instrumentation & Measurement, Semiconductor industry, Photovoltaics, Terminals & vending machines, Commercial and Industrial HVACR, LED Lighting, 3D printers, Robotics, Water treatment, Elevators, Power tools, Professional floor care machines

HIGHLIGHTS OF HOLDING

Founded in
1938

Private since
1992

Revenue
(2024-exp.)
765
Mill €

Equity
No debt since 2005
542
Mill €

1st
Most Valuable
Company in HUN
Ownership*

10
Locations

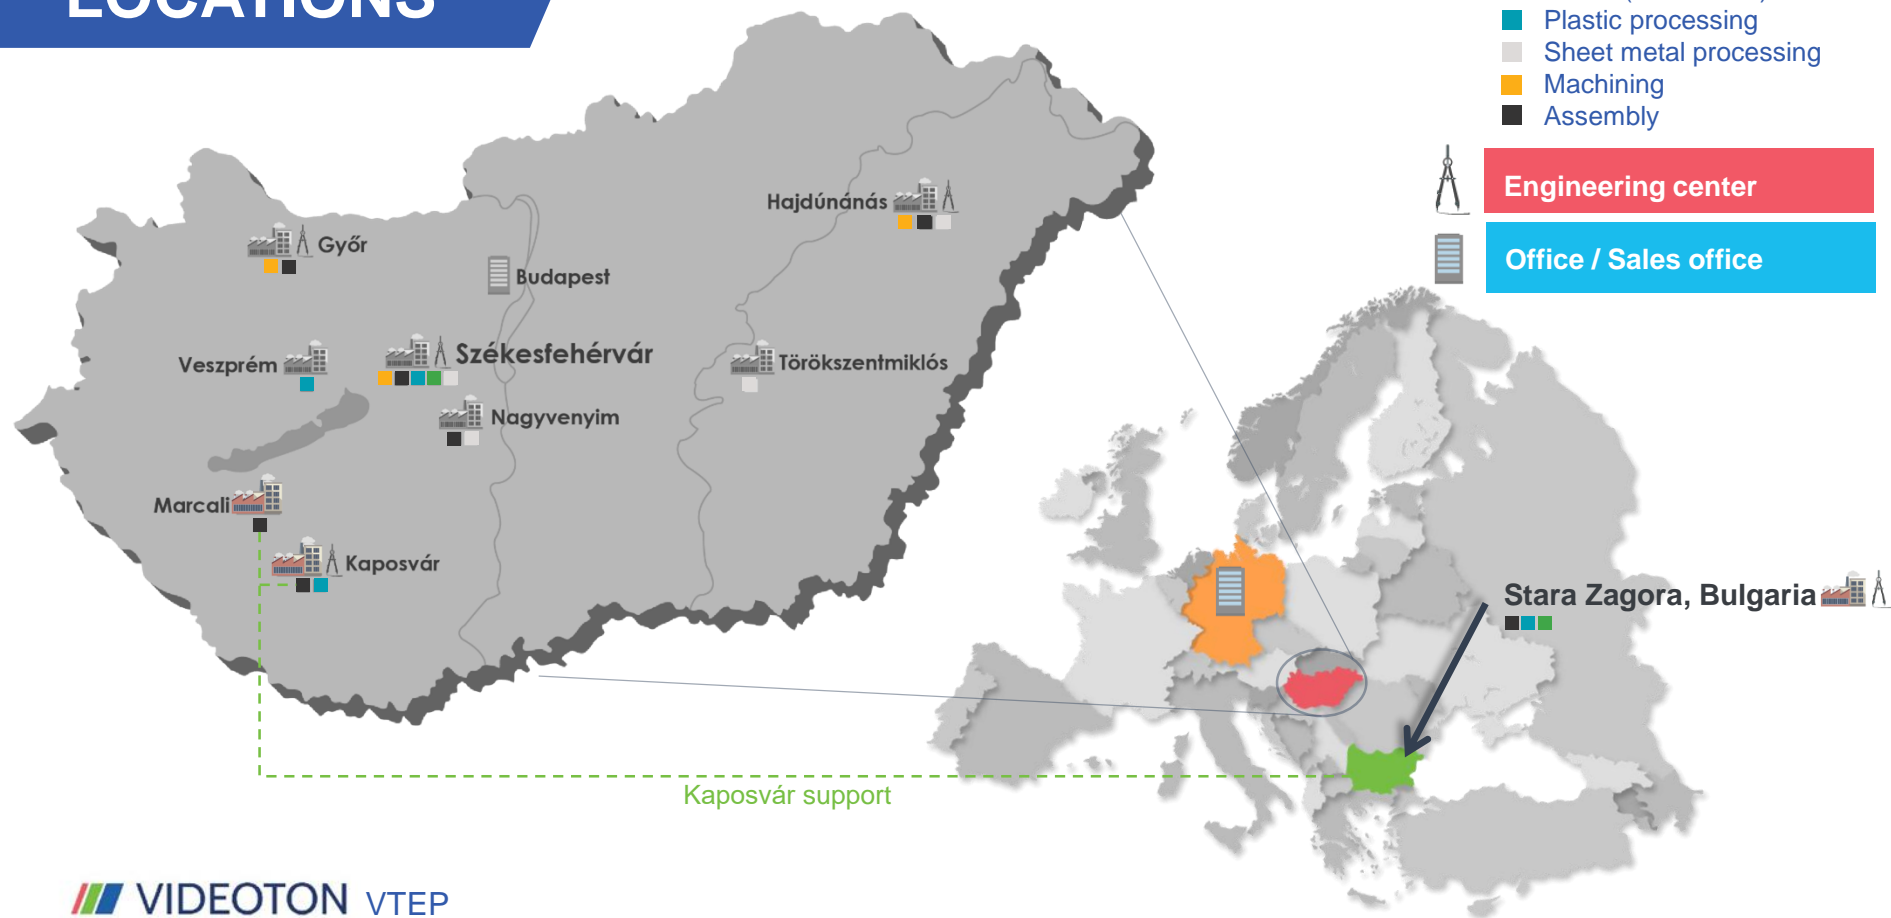

8450
Employees**
(2024)

4th
Among EMS
Companies HQ'd
in Europe

** According to Forbes in 2021*

*** 2500 employees in Services and temporary work*

ORG CHART

HOW WE THINK...

MISSION

- provide full service from product design through sourcing, industrialization, in-house injection moulding to mass production and delivery

VISION

- to be a worldwide well-known and recognized manufacturing partner in the field of plastic-based products and battery driven appliances

VALUES

- tradition and innovation
- proactive mindset
- customer oriented organisation

CSR POLICY

- we are sensitive to environmental changes
 - we protect our employees from negative effects
 - we maintain company culture based on a 50-year history
- [CSR activities](#)

CERTIFICATES

ISO 9001:2015

ISO 14001:2015

IATF 16949:2016

ISO 13485:2016

ISO 45001:2018

ISO 50001:2018

AEOF 2014

BUSINESS MODEL

PRODUCT DEVELOPMENT

1/2

- industrial / common design for product components with customers
 - design plastic and material components, sub-assembly
 - design electronics
- product renewing, facelift
 - products re-design, additional functions
- creating 2D and tolerance chain calculation, 3D doc
- feasibility studies, CFMEA, DFMEA, PFMEA, patent research, risk assessment
- creating prototype parts and devices – 3D printer
- 3D scanner for product and tool approbation
- special pre-approbation test devices, jigs
- pre-approbation tests in internal and external labs
- product approbation (TÜV Rheinland InterCert Hungary)

TESTLAB

2/2

- infrared camera
- product design tests
- product release test
- product functionality-related
- product performance-related test
- battery related tests – charging, discharging, capacity tests, short circuit analysis
- RoHS compliance (XRF tester)
- pre-approbation tests
- internal test for investigation of quality problems

INDUSTRIALIZATION

- state-of-the-art technologies
- process automation
- single-purpose machines
 - life-span and function testers
 - traceability systems
 - assembly fixtures, jigs
- high voltage testers
- assembly lines – from simple to automated

SOURCING

Tool management (more than 10 partners)

- supplier selection
- price negotiation
- regular site visits
- time tracking

Strategic sourcing and procurement

- available supplier base – more than 500 vendors
- supplier development (co-operation, price negotiation)
- specialized commodity sourcing
- building strategic partnerships, seeking and qualifying new suppliers

PLASTIC INJECTION MOULDING

- thermoplastic injection moulding
- 80 pcs PIM machines, 15-650 t clamp force (vertical, horizontal and 2K)
- on-line real time data collection and evaluation system
- automation, robotized production cells
- smart solutions: tool positioning system
- tampon printing, hot stamping, laser engraving
- welding technologies (IR, mirror, ultrasonic, friction)

270 types
resin and
colouring

75
supplier

2600 t
annual resin
consumption

1100
active injection
moulding tool

ASSEMBLY

1/2

- engineering samples, mass production and service parts
- different country and colour versions
- customized, personal solutions – production cells to assembly lines
- self-made and purchased components
- wide range of complex sub-assemblies / end-products
- assembly, testing, late customizing

BATTERY ASSEMBLY

2/2

- Li-ion, Ni-MH, Li-metal batteries
- single cells and complete battery packs
- enormous diversity and usage
- types according to its forms: cylindrical, prismatic, button
- technologies: blistering, shrinking, soldering, resistance welding, laser welding, screwing, charging, testing (complex), tamper printing, laser marking, packaging
- a member of the European Battery Alliance since 2018

55 mEUR

cell value

7 main

cell suppliers

1-144 cells

contained in battery
packs

LOGISTICS

- 2600 tons of processed resin per year
- 11 000-pallet storage capacity
- 40 incoming trucks / week
- 25 outgoing trucks / week
- handling all Incoterms from EXW to DDP for incoming and outgoing goods

QUALITY MANAGEMENT

- customers satisfaction first
- excellent quality products
- high level of services
- fulfillment of ISO standards and legislation
- continuous improvement
- strong supplier base

PORTFOLIO
